update: Okay finally.. The colored v necks with 2 % spandex are being printed- that means more of a fitted top<33 also bright hot colors. Booty shorts and hoodies are on the way. NEW update with the jewelry also.. but it's a surprise.. so you will just have to wait a little bit longer to see!. Those of you who bought a v-neck from the first run, you get a free shirt from this colored v neck line<3 I will look up your invoices and send you one once they arrive. If you are buying a necklace for a holiday.. please do it by DEC 7 for guarantee of holiday delivery.. past dec 7 we have a hard time getting your necklace there by the holidays.
